

User Interface Overview

The POS system is designed to be simple and user-friendly. Below is an overview of its key components:

1. Home Screen

Displays the main interface with a "Connect Wallet" button.

Shows available payment options.

2. Payment Options

Manual Card Entry: Allows entering card details manually.

Pre-auth Code: Lets users enter a 4 or 6-digit authorization code.

Apple Pay Tap Payment: Enables tap payments via Apple Pay.

3. Payment Processing

After selecting a payment method, users enter the required details.

The "Process Payment" button starts the transaction.

A confirmation message appears after a successful payment.

4. Transaction History

Users can check their wallet transaction history for payment verification.

5. Error Handling

If a transaction fails, an error message is displayed with troubleshooting tips.
